MyProgramming Lab Setup Instructions

1. Its highly recommended that you use your existing Pearson account, so recall your Pearson account login, if you forgot, retrieve by clicking on "Sign In" and then "Forgot your login" link or directly https://register.pearsoncmg.com/forgotlogin/forgotLogin.fl?request_locale=null
2. If you do not have a Pearson account, you can create one during the registration process.
3. Go to www.MyProgrammingLab.com and click on STUDENT link under Register. View the 2-3 minute video on the page **and follow the instructions**.
4. The Course-ID for our CS1110 sections (43245 and 44179 during Fall 2014) can be obtained from your Elearning.
5. You will need access code from your custom-book bundle or can purchase it separately. Last I checked, the prices were: ~$91 for ebook (whole book and not the custom)+ MyProgrammingLab; $42.40 - just the MyProgrammingLab; and ~$78 at WMU bookstore for the custom book + MyProgrammingLab.
