A student can enroll for any number of courses and each course can have any number of students.

Java Project Ideas For United State OF America[USA]

5. RAILWAY SYSTEM DATABASE PROJECT

A railway system, which needs to model the following:

1. Stations
2. Tracks, connecting stations. You can assume for simplicity that only one track exists between any two stations. All the tracks put together to form a graph.
3. Trains, with an ID and a name
4. Train schedules recording what time a train passes through each station on its route.

You can assume for simplicity that each train reaches its destination on the same day and that every train runs every day. Also for simplicity, assume that for each train, for each station on its route, you store

- Time in,
- Timeout (same as time in if it does not stop)
- A sequence number so the stations in the route of a train can be ordered by sequence number.

1. Passenger booking consisting of train, date, from-station, to station, coach, seat and passenger name.

Do my Programming Homework

6. HOSPITAL MANAGEMENT SYSTEM DATABASE PROJECT

A patient will have unique Patient ID. Full description about the patient about personal detail and phone number, and then Disease and what treatment is going on. The doctor will handle patients, One doctor can Treat more than 1 patient. Also, each doctor will have unique ID. Doctor and Patients will be related. Patients can be admitted to hospital. So different room numbers will be there, also rooms for Operation Theaters and ICU. There are some nurses, and ward boys for the maintenance of hospital and for patient take care. Based upon the number of days and treatment bill will be generated.

Check Hospital Management System project in PHP

7. LIBRARY MANAGEMENT SYSTEM DATABASE PROJECT

A student and faculty can issue books. Different limits for the number of books a student and teacher can issue. Also, the number of days will be distinct in the case of students and teachers for issue any book. Each book will have different ID. Also, each book of the same name and same author (but the number of copies) will have different ID. Entry of all the book will be done, who issue that book and when and also duration. Detail of Fine(when the book is not returned at a time) is also stored.

9. HEALTH CARE ORGANIZATION DATABASE PROJECT

This organization provides following functionalities
- Emergency Care 24x7
- Support Groups
- Support and Help Through calls

Any new Patient is first registered in their database before meeting the doctor. The Doctor can update the data related to the patient upon diagnosis (Including the disease diagnosed and prescription). This organization also provides rooms facility for admitting the patient who is critical. Apart from doctors, this organization has nurses and ward boy. Each nurse and ward boy is assigned to a doctor. Also, they can be assigned to patients (to take care of them). The bill is paid by the patient with cash and E-banking. Record of each payment made is also maintained by the organization. The record of each call received to provide help and support to its existing person is also maintained.

Check clinic management system project in PHP

10. RESTAURANT MANAGEMENT DATABASE PROJECT

The restaurant maintains the catalog for the list of food and beverage items that it provides.
Apart from providing food facility at their own premises, the restaurant takes orders online through their site. Orders on the phone are also entertained.
To deliver the orders, we have delivery boys. Each delivery boy is assigned to the specific area code. The delivery boy cannot deliver outside the area which is not assigned to the delivery boy (for every delivery boy there can be single area assigned to that delivery boy).
The customer record is maintained so that premium customer can be awarded discounts.

11. DESIGN A SCENARIO AND AN ER DIAGRAM FOR AN IT TRAINING GROUP DATABASE PROJECT

It will meet the information needs of its training program. Clearly indicate the entities, relationships, and the key constraints. The description of the environment is as follows:
The company has 10 instructors and can handle up to 100 trainees for each training session.
The company offers 4 Advanced technology courses, each of which is taught by a team of 4 or more instructors. Each instructor is assigned to a maximum of two teaching teams or may be assigned to do research. Each trainee undertakes one Advanced technology course per training session.

12. BLOOD DONATION SYSTEM DATABASE PROJECT

A system in which data of Patient, data of donor, data of blood bank would be saved and will be interrelation with each other

DATA OF PATIENT – Patient Name, Patient Id, Patient Blood Group, Patent Disease
DATA OF DONAR – Donar Name, Donar Id, Donar Bood Group, Donar Medical report, Donar Address, Donar Contact number  
DATA OF BLOOD BANK – Blood Bank Name, Blood Bank Address, Blood bank Donors name, Blood Bank Contact Number, Blood Bank Address

Try to implement such scenario in a database, create a schema for it, an ER diagram for it and try to normalize it.

13. ART GALLERY MANAGEMENT DATABASE PROJECT

Design an E-R Diagram for an Art Gallery. Gallery keeps information about "Artist" their Name, Birthplace, Age & Style of Art about "Art Work," Artist, the year it was made, Unique title, Type of art & Prices must be stored. The piece of artwork is classified into various kind like Poetess, Work of the 19th century still life, etc. Gallery keeps information about Customers as their Unique name, Address, Total amount of Dollar, they spent on Gallery and liking of Customers.

14. HOTEL MANAGEMENT SYSTEM DATABASE PROJECT

A hotel is a hive of numerous operations such as front office, booking, and reservation, banquet, finance, HR, inventory, material management, quality management, security, energy management, housekeeping, CRM and more. The hotel has some rooms, and these rooms are of different categories. By room category, each room has the different price. A hotel has some employees to manage the services provided to customers. The customer can book the room either online or by cash payment at the hotel. The customer record is stored in hotel database which contains customer identity, his address, check in time, check out time, etc. hotel provides food and beverages to their customers and generates the bill for this at the time of their check out.

15. SCHOOL MANAGEMENT SYSTEM DATABASE PROJECT

School management System project in PHP

Design a database to maintain information about school staff and students satisfying following properties:

1. Staff will have their id, name, and classes they are teaching
2. Student will be having name, roll no, section, class
3. Another table containing section, subject and teacher information
4. Next will contain fee information for students
5. One contains salary information for teachers
6. Rooms are assigned to classes keeping in mind that there is no time clash of same room or lab, students can not be entered in more than one section, no student should be there who have not paid fees up to a particular date.

16. WHOLESALE MANAGEMENT SYSTEM DATABASE PROJECT

1. Maintain the details of stock like their id, name, quantity
2. Maintain the details of buyers from which manager has to buy stock like buyer id, name, address, stock id to be bought
3. Details of customers i.e. name, address, id
4. Defaulters list of customers who have not paid their pending amount
5. List of payment paid or pending
6. The stock that is to buy if quantity goes less than a particular amount.
7. Profit calculation for a month.
8. Quantity cannot be sold to a customer if required amount is not present in stock and date of delivery should be maintained up to which stock can be provided.

17. SALARY MANAGEMENT SYSTEM DATABASE PROJECT
1. Employee list to be maintained having id, name, designation, experience
2. Salary details having employee id, current salary

Normalization
Also SQL is most important for creating database

WHAT PEOPLE SAY ABOUT ME

Mr. Sarfaraj Alam aka Sam is amazing with any kind of programming assignments. You name any language C, C++, JAVA, Matlab, C#, Web Application, Database, Data Structure, Game, Animation, etc. As mentioned I did all my assignments throughout my semester and I got more than 98 or more which is an A in every assignments I gave to Mr. Sam. He helped me in all the assignments. I used many online services for my assignments before but they were rude and no clarity on how the work will be done, no real customer service or no real communication until I found out about Sam. I called him the very first time and asked his functionality and how he works completing an assignment, I was never satisfied as I am right now, I am still using his services for my Projects, assignments, etc. I felt I am talking to my friend and we bond a relationship into a real good friendship. I would give my assignments a day before and he would anyhow do it without any hesitations and I would still get full score on my Projects and Assignments. I am actually a very busy person working and going to school is really stressful, but when Sam is there you can sleep very peacefully, with no tension. He is very friendly and would understand your needs, urgency and quality of the work as
Mark Smith | University of Houston, Houston, USA

"It seems like everyone is labelling themselves a coding expert, but Mr. Sarfaraj is one of the few who has actually earned the right to use the title. His profound knowledge of programming and online project help brings value to anyone seeking his services."

Renee Chokshi | Melbourne, Victoria, Australia

"Lovely coding has become a key and valuable for projects help, which helps us meet our challenges to seek curious and sharp minds of this site. Lovely coding is not simply about measuring knowledge; it has proven to be essential in our selection process a comprehensive picture of candidates' talent and way of reasoning. Lovely coding is outstanding service in projects related to programming. Any way thanks for him in getting my project done in short span of than our expectancy."

Jonathan | California , USA

"I am a mechanical student from Hong Kong, China. I am passionate about machines, but in our second semester I got a programming subjects. Programming is very triable task for me. I got a semester project, whose percentage is 25%, without scoring well in this project, I could not pass in this subject. My Professor have allocated very unique project for us. I tried a lot on the web but I could not get, while searching I got lovelycoding.org
I sent my assignment to Mr. Sarfaraj and asked for help. He had done it within 2 days. I got 'A' grade in C programming. Thanks to Mr. Sarfaraj. He is very good in programming, but prices are little up, but quality is awesome."

Jing Xin | Hong Kong,China

"It had the last some hours to submit my assignment, I was worried, I was asking to my friends to help to do my assignment. One of my friends advised to search my assignment on internet then I googled and got lovelycoding.org I asked here to help, Sarfaraj promised me to that he will complete my c programming assignment before time and he had done it successfully, I got 95% marks in my assignments, I highly recommend for you, He very co-operative"

Aq Ana | Malasiya

"Sarfaraj Alam calls himself a "ProProgrammer," because that is what he really is. I needed urgent help on a large project of mine and he went out of his way to make sure I..."
Kaitlyn Gifford | Florida, USA

"got my project done and turned in on time. The prices are extremely reasonable and the work is done very well. I got pretty much instant replies to all my e-mails and he was more than willing to fix any mistakes there could have been or answer any questions I might have had. Helping people with programming is his job and he takes it very seriously and does a magnificent job at it. I cannot thank him enough for all the help he has given me."

Kaitlyn Gifford | Florida, USA
