ICST 2019, the 12th in the conference series, will be held in Xi’an. One of the oldest cities in China, Xi’an was the capital of thirteen dynasties in China’s history. It is the starting point of the Silk Road and home to the Terracotta Army of Emperor Qin Shi Huang. While in Xi’an, you will be amazed by its deep historical and cultural atmosphere, gorgeous local food and the warmth of the local people.
ICST 2019 is intended to provide a common forum for researchers, scientists, engineers and practitioners throughout the world to present their latest research findings, ideas, developments and applications in the area of Software Testing, Verification and Validation. ICST 2018 will include keynote addresses by eminent scientists as well as special, regular and poster sessions. All research papers will be peer reviewed on the basis of a full length manuscript and acceptance will be based on quality, originality and relevance. Accepted research papers will be published in the conference proceedings with an IEEE catalog number and ISBN number. The proceedings will be submitted for publication in IEEE Xplore.
